Profile

Graphic designer with hands-on experience in branding, visual identity, and AI-driven creative production. Worked on international media projects across Spain, Poland, Russia, and Belarus. Focused on crafting cohesive, aesthetically balanced visuals that express brand values with clarity and emotion. Skilled in composition, color theory, and advanced generative AI tools including Midjourney, ChatGPT, and Sora.

Experience

Woopicx.com — 2025

- Created over 1,000 AI-generated images for the website.
- Developed flexible visual styles with adaptable AI prompts to any theme.
- Deep understanding of generative AI (Sora, ChatGPT, Midjourney); analyze outputs, refine prompts, and ensure high-quality, coherent visuals.

Deluxe pub Calanmor — 2025

- Designed the full menu and bar card for Calanmor, a deluxe pub located in downtown Málaga, Spain — creating both from scratch using the brand's color palette, logo, and overall theme.
- Handled layout, typography, and prepress preparation for high-quality print.
- Communicated directly with the client, presented multiple design options.
- The successful collaboration led to an ongoing partnership, where I later designed promotional materials, advertising visuals, and banners.

Media Group — 2025

- Created visual content for different social media platforms (Instagram, Telegram, VK, Dzen, and the company website).
- Developed brand identity and custom layouts for editorial sections.
- Collaborated closely with the design and editorial teams, demonstrating strong teamwork and adaptability under tight deadlines.

Davooda.com — 2024

- Created clear, high-quality, and visually balanced icons.
- Reworked icon sets in multiple styles Found design solutions to ensure icons remained readable and cohesive.
